

WHAT IF 20 MILLION ILLEGAL ALIENS VACATED AMERICA?

By Frosty Wooldridge

Tina Griego, journalist for the Denver Rocky Mountain News wrote a column titled, "Mexican visitor's lament" -- 10/25/07.

She interviewed Mexican journalist Evangelina Hernandez while visiting Denver last week. Hernandez said,

"They (illegal aliens) pay rent, buy groceries, buy clothes...what happens to your country's economy if 20 million people go away?"

That's a good question – it deserves an answer. Over 80 percent of Americans demand secured borders and illegal migration stopped. But what would happen if all 20 million or more vacated America? The answers may surprise you!

In California, if 3.5 million illegal aliens moved back to Mexico, it would leave an extra \$10.2 billion to spend on overloaded school systems, bankrupted hospitals and overrun prisons. It would leave highways cleaner, safer and less congested. Everyone could understand one another as English became the dominate language again.

In Colorado, 500,000 illegal migrants, plus their 300,000 kids and grand-kids – would move back "home," mostly to Mexico. That would save Coloradans an estimated \$2 billion (other experts say \$7 BIL) annually in taxes that pay for schooling, medical, social-services and incarceration costs. It means 12,000 gang members would vanish out of Denver alone.

Colorado would save more than \$20 million in prison costs, and the terror that those 7,300 alien criminals set upon local citizens. Denver Officer Don Young and hundreds of Colorado victims would not have suffered death, accidents, rapes and other crimes by illegals.

Denver Public Schools would not suffer a 67 percent drop out/flunk out rate via thousands of illegal alien students speaking 41 different languages. At least 200,000 vehicles would vanish from our gridlocked cities in Colorado. Denver's four percent unemployment rate would vanish as our working poor would gain jobs at a living wage.

In Florida, 1.5 million illegals would return the Sunshine State back to America, the rule of law and English.

In Chicago, Illinois, 2.1 million illegals would free up hospitals, schools, prisons and highways for a safer, cleaner and more crime-free experience.

If 20 million illegal aliens returned "home" --

If 20 million illegal aliens returned "home," the U.S. economy would return to the rule of law. Employers would hire legal American citizens at a living wage. Everyone would pay their fair share of taxes because they wouldn't be working off the books. That would result in an additional \$401 billion in IRS income taxes collected annually, and an equal amount for local state and city coffers.

No more push '1' for Spanish or '2' for English. No more confusion in American schools that now must content with over 100 languages that degrade the educational system for American kids. Our overcrowded schools would lose more than two million illegal alien kids at a cost of billions in ESL and free breakfasts and lunches.

We would lose 500,000 illegal criminal alien inmates at a cost of more than \$1.6 billion annually. That includes 15,000 MS-13 gang members who distribute \$130 billion in drugs annually would vacate our country. In cities like L.A., 20,000 members of the "18th Street Gang" would vanish from our nation. No more Mexican forgery gangs for ID theft from Americans! No more foreign rapists and child molesters!

Losing more than 20 million people would clear up our crowded highways and gridlock. Cleaner air and less drinking and driving American deaths by illegal aliens!

Drain on America's economy; taxpayers harmed, employers get rich.

Over \$80 billion annually wouldn't return to their home countries by cash transfers. Illegal migrants earned half that money untaxed, which further drains America's economy – which currently suffers an \$8.7 trillion debt. At least 400,000 anchor babies would not be born in our country, costing us \$109 billion per year per cycle.

At least 86 hospitals in California, Georgia and Florida would still be operating instead of being bankrupted out of existence because illegals pay nothing via the EMTOLA Act. Americans wouldn't suffer thousands of TB and hepatitis cases rampant in our country—brought in by illegals unscreened at our borders.

Our cities would see 20 million less people driving, polluting and grid locking our cities. It would also put the "progressives" on the horns of a dilemma; illegal aliens and their families cause 11 percent of our greenhouse gases.

Over one million of Mexico's poorest citizens now live inside and along our border from Brownsville, Texas to San Diego, California in what the New York Times called, "colonias" or new neighborhoods. Trouble is, those living areas resemble Bombay and Calcutta where grinding poverty, filth, diseases, drugs, crimes, no sanitation and worse. They live without sewage, clean water, streets, electricity, roads or any kind of sanitation. The New York Times reported them to be America's new "Third World" inside our own country. Within 20 years, at their current growth rate, they expect 20 million residents of those colonias. (I've seen them personally in Texas and Arizona; it's sickening beyond anything you can imagine.) By enforcing our laws, we could repatriate them back to Mexico.
