

Nazi Philosophy on U.S. Soil Today

by

Hilmar von Campe

It is not the American custom of the day to assign the label Nazi to any ideological opponent. Those who do that are largely those who know very little about it and are more closely related to the national Socialists than to our Founding Fathers. Nazis are not Fascists but belong to global Socialism, a section of the radical Left. I grew up during the Nazi regime and following are some current developments that remind me of that time.

- The Nazi intent was to throw God out of society. The Gestapo was posted outside church doors trying to intimidate us. Christians were told by the Nazis that we could pray and sing hymns in our homes and churches but the rules and control of society were the exclusive responsibility of the state, that is, the German National Socialist Workers Party alone. Here, the White House, Congress, and the Judiciary allow the ACLU to destroy the fundamentals of our founding.

- The Nazis and their modern counterparts in government in the U.S. realized that their control of government would be difficult if people were obedient to a higher authority – God. The international Socialists, the Soviets, had come to the same conclusion.

- It was legal in Nazi Germany to rob Jews first of their rights and then of their lives (6 million) and it is legal for the baby killers of today, many of whom call themselves Christians, to kill so far more than 50 million unborn human beings with the same reasoning: get rid of the unwanted! This is made possible, maintained and promoted by the Democratic Party.

- Darwin's anti-God Theory of Evolution was taught in Nazi schools just as it is being taught in public schools in America today. At this point the reader might begin to think about the reality of how it was possible that our nation can be taken over from within.

- Hitler created the German Christians. The leading "bishop" Mueller promoted the Nazi ideology in religious language. Rev. Jim Wallis was recently presented as spiritual advisor to Obama, I suspect that he has the same task as Mueller – to fool naïve Christians.

- Hitler created his own private army, the SS, which included the Gestapo, which reported directly to him. He killed about 300 opposition personalities including a former chancellor. He destroyed the armed threat of the competitive storm troopers (S.A.) by killing the leadership.

While speaking at the University of Colorado (UCCS) in July of 2008, Obama spoke of wanting to create such an armed force: "We cannot continue to rely on our military in order to achieve the national security objectives that we've set. We've got to have a civilian national security force for that's just as powerful, just as well-funded."

We have the National Guards and the militia. He lied, I think, as Hitler lied. His army is for power and security for himself and aims at the population, I think.

- Hitler lied himself into becoming head of government and then led the German people and the world into WWII underneath that lie. Obama also lied himself into victory in the election of 2008. The most blatant lie was his promise not to raise any direct or indirect taxes for people with an income of less than \$250,000.

- Opposition is declared to be criminal or dangerous, intimidation and character assassination replaces honest reasoning for those who didn't agree with Hitler. In addition to the 6 million Jews, millions of others perished in Nazi concentration camps. It seems that a move in similar direction has surfaced in the U.S.; at least there are rumors about the existence of detention camps for American citizens. Intimidation and character assassination, however, are in place and being applied to the tea party, to political opposition personalities and media outlets like Fox News which report honestly. Within the nation a spirit is growing which is similar to the spirit in Nazi Germany, which makes me shudder, people become afraid of their own government.

- 100% of the media were under control of the Nazis, and we received Nazi propaganda in form of news. To listen to foreign radio broadcasts was punishable including with the death penalty. My father listened to Swiss radio Beromuenster at night around 10:00pm so that we innocent children did not realize what he was doing as we could give him away to the Nazis without understanding Nazi danger. The Nazis tried to control the parents through their children. The role of silencing opposition here is performed by some media, which does not give objective news like Fox News and WorldNetDaily but protects and promotes their leftist friends. Government action is also not missing. These totalitarian minded "Democrats" want to silence the opposition, take out conservative radio, and control the INTERNET. Naturally they argue with lies! Whatever they give as reason, it is a lie.

Adoration of Hitler existed then as it exists today for Obama not just in the U.S., but also in Europe with blind acceptance of their phantasies.

Increasing government power. No democratic opposition existed any more at the outbreak of WWII. Hitler and the Nazis controlled everything. Here we are on the same road to government control of society, taking over national healthcare, Banks and private industry and create a new army of unproductive government employees. What the elites in both societies have in common is the lying for power.

Destruction of currency. The Nazi government gave no information about monetary affairs. The German people felt 1948 the financial consequences of their policy. Millions had already lost their home in East Germany and now their Reichs Mark was devalued 10-to-1 to the new Deutsch Mark. The present devaluation of the Euro could lead to a return of the DM. So far the Federal Reserve here refuses to open its books to Congress and the American people. It would be insane to pay a trillion dollars to these bankers for Obama's projects. He needs to inform the nation what he has negotiated.

Contempt for ordinary people and their opinions and needs shown by arrogant leaders are part of the underlying reality in both societies.

Hitler counted the Slavs also as inferior race. Obama threatens to impose a solution for a creation of a state for the Palestinian Arabs "that the Israelis won't appreciate" according to a report of WorldNetDaily on May 17. He has neither a solution nor the right to impose his ignorance on another sovereign nation. Israel became a state 1312 B.C., (two millennia before Islam existed) and maintained a continuous presence there for 3,300 years. There was never an Arab state in what the British named Palestine. The Palestinian Arabs are the ones who occupy Jewish land given to them by God. And hatred of the Jews is burning especially inside of young Arabs. They still get it in the schools.

Germany went down because of godlessness of leaders and led. We must not follow on the road to hell. There were too many bystanders and hypocrites like myself. Americans, stop lying and stand up for truth. America still has a formidable army of Christian patriots. Support and join the tea party. They want the Constitution placed into the center of our nation and stop the irresponsible Washington establishment to spend trillions of dollars of taxpayer's money. Dishonest godless leaders only deepen the global crisis. We need political leaders who listen to God and live and govern by His commandments.
