

Nazi godlessness: We are on our way

By

It is appalling to watch the recklessness with which our government handles taxpayer's money. The legislation for the economic stimulus program of \$797 billions comprised more than 1000 pages. Nobody who voted for this in The Congress or signed it off in the White House can possibly have read it all and know the implications. The same people or kind of people who created the mess we are in now are creating an even worse scenario. There is no real control... Functionaries of doubtful moral quality with some bankers can play around with other people's money as well as with the fate of every citizen and the future of this nation.

Lenin and Hitler used the national and economic disasters in their countries to ride to political victory. Conquest in a time of disaster! I believe that the United States is in a similar development which is spearheaded by Barrack Hussein Obama.

Obama has brought no change for the better to Washington, but just the old Socialist policy of spending money of others, taking control of institutions and continue making promises.

What I see read and hear about and from him can only be interpreted that his real purpose is to push our Constitution at the side and integrate the United States into the Socialist world order. In an address to young people in France he spoke repeatedly about the need that the we in this world must be one. What he did not mention was who would provide the leadership and how.

Watching him in his speech to enthusiastic naïve youngsters I recalled the times when I saw Hitler in the same position in front of masses of enthusiastic people who adored him. There is much similarity between Hitler and Obama, both being adored by millions. Both have an agenda which declares the march into slavery to be a march into a better future. If you look at the front cover of my recent book "Defeating the Totalitarian Lie" and take the photo of Hitler out and put Obama's in it would look real. Both are masters of persuading language.

Therefore we must watch what Obama does and not what he says. Here are some examples of his action:

- He has not produced proof that he is legally eligible to be president of the United States but speaks of the need for a state of law.
- He has made abortion part of his political platform. So far more than 50 million unborn human beings have been murdered in the United States. He is part of mass murder.
- As state senator in Illinois he voted against the Born Alive Infant Protection Bill, which would have prohibited the killing of late term babies that survived attempted abortions and pretends that he doesn't know when life begins.

- Few days after inauguration he established anew a cancelled procedure which allows giving tax payers money to international groups that perform abortions or provide abortion information.
- According to Chief Counsel Jay Sekulow of the American Center for Law and Justice Obama said he'll remove protections for pro-life medical professionals – rescinding the Conscience Clause - and force physicians and nurses to participate in abortion procedures.

There is an attempt in Congress to remove a fundamental freedom and make people completely dependent on big agriculture like Monsanto. The Food Safety Modernization Act is defined as “to protect the public health by preventing food-borne illness, ensuring the safety of food, improving the research on contaminants leading to food-borne illness, and improving security of food from intentional contamination, and for other purposes.” Sounds great, but it seems that the main purpose of this legislation is to hinder little me or small business in producing something in his garden or field. They would be subject to federal inspections, regulations and paperwork. Big Business would prevail. The Act was introduced by Rosa DeLauro, D-Conn, whose husband, Stanley Greenburg, works for Monsanto – the world’s leading producer of herbicides and genetically engineered seed.

The House of Representatives has approved a plan to set up a new “volunteer corps”. They are looking also at a “workable and reasonable mandatory service requirement for all able young people”, as Bob Unruh describes it in his article in WorldNetDaily of March 20, 2009. Obama wants \$6 billion for this in the next 3 years. Earlier he had called for a National Civilian Security Force. Whatever name they give this baby it is an attempt to control the youth of our nation. and indoctrinate them with their own immorality and Socialist lies at the expense of taxpayer’s money also from those who don’t agree with him. I think Obama has copied Hitler who created what was called “Arbeitsdienst” (Service to Work). It was a mandatory 6 months membership before being drafted into the armed forces. It was part of the Nazi national structure for indoctrination which nobody could escape.

This would be another example of Nazi ideology here in America. The Bill, approved by the House with 321 – 105 votes, would forbid any participant engaging in religious instruction, conducting worship services, providing instruction as part of a program that includes mandatory religious instruction or worship, constructing or operating facilities devoted to religious instruction or worship, maintaining facilities primarily or inherently devoted to religious instruction or worship, or engaging in any form of religious proselytization. That means no church attendance or witnessing. The majority of the House has reached the level of Nazi godlessness.

Also in Germany exists a movement to return to the Nazi era even though they are irrelevant and cannot by far be compared in their impact to what is developing in the United States. However, the principle of their purpose is of interest. According to a report by the newspaper “Die Welt” of March 31, the Neo-Nazi Organization German Youth Faithful to its Homeland is in it’s status committed to the German Constitution. But according to the government that is just a frontage. In reality, it states that they are indoctrinando the youth with Nazi concepts trying to create a new Nazi elite.

And precisely that, I believe, is the Obama purpose for the volunteer corps, only with the difference, that he is not working for National Socialism (Nazi) but for the international Socialism which in the final analysis is Soviet Communism

The real Obama is not the person who is presented to us. He is tailored in America for the marketing to Christians who will be decisive in the next elections. Globally he tries to catch the youth and is backed by the Left. In the battle for power in the world the principal question is who has the better ideology with the capacity to improve human life. The issue at the heart of this battle is the debate about the role of God in human society. The alternatives are truth or lie and every last person has to decide on what side of the battle line he or she is. Obama and his comrades are on the side of the Lie. To him I say, you can't live crooked and think straight! We want a president who represents truth and life and not lies and death.
